New! Powerful Solstice NVR

Starting at \$599.99!

THINK IP IS EXPENSIVE?
THINK AGAIN

Make an investment in IP with our IP network video recorders, or NVRs. NVRs accept IP and analog cameras through encoders and are pre-installed with powerful video management software that allows you to control your cameras and secure your environment. Enjoy high resolution mega-pixel video at a fraction of the cost.

NEW! Mini Embedded NVR

4-channel now available!

- » Web-based - no need to install software on your computer
- » Compatible with the most popular internet browsers, including Firefox, Chrome, Safari, and Internet Explorer
- » Multi-lingual (English/Spanish)
- » No licensing fees - use as many channels as you want for no additional cost
- » No hidden fees
- » Green unit (low power consumption)
- » Pre-installed surveillance-grade hard drive
- » Smartphone compatible
- » Capable of multi-streaming (record at one rate and watch it another rate). For example, record the video at a high rate but watch video at a lower rate for faster transmission
- » Comes with 1-year warranty and 30-day money-back guarantee.

Find the Video You Need Faster Than Ever!

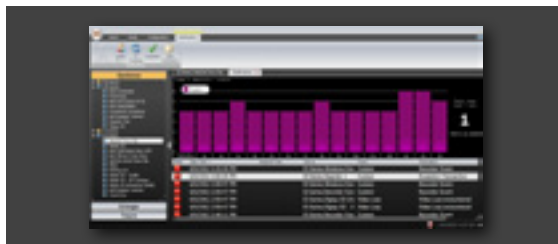

Instant Replay

This search feature allows instant rewind of video from the last 1, 2, 5, or 15 minutes. With a single click, users are able to save time and quickly locate specific video clip.

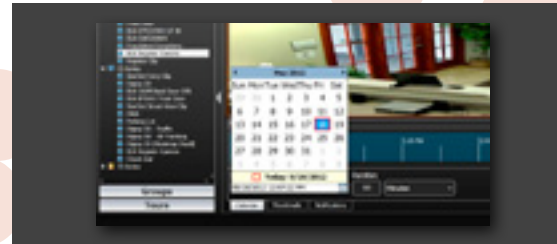

Filter Query

Filter queries provide the ability to perform granular searches of video and data. This search feature enables users to efficiently mine the data for exact events and view the associated video. In order to narrow search results, multiple criteria may be added to a filter query.

Notifications Engine

Notifications are alerts that bring attention to events. Events can be everything from the system not recording, the system being offline, video loss from a camera to system loss. Notifications can also be generated by an Action that is triggered when a defined Rule is broken. When notifications appear, they can be managed and tracked to resolution.

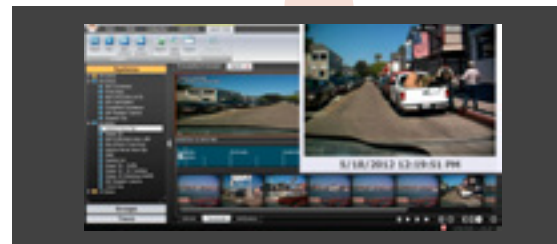

Calendar Search

A powerful search feature that lets users enter the exact date, time and duration to be reviewed, and features a precise timeline slider to examine the defined time period.

Quick Export

Single touch save and export tool allows users to easily distribute selected time range of recorded video or selected image clips. For added flexibility, users can export information using a variety of available file formats.

Thumbnail Search & Auto Enlarge

Thumbnail search option quickly navigates through recorded video by viewing thumbnails of video segment within a defined search timeline. Thumbnail search allows users to precisely identify when specific event. Simply mouse over thumbnails to enlarge the frame of the video to identify the desired part of the video.

DIGIOP Elements™ Simple Licensing

- Non-expiring licenses
- No recurring fees
- No hidden fees

When You are Looking for More!

Video-enhanced Intelligences

Heat Maps

Heat mapping allows users to better understand where customers are spending the most time.

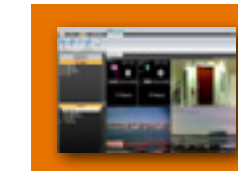

Traffic Counting

Traffic counting monitors traffic patterns throughout the facility and helps users to evaluate the change in the traffic levels based on different times of week, and time of day.

Intuitive & Flexible Interface

DIGIOP's dashboard uses a tabbed interface design that permits multiple custom layouts of up to 36 cameras or data sources per tab.

Groups & Tours

For automated viewing ability, users can select the number of camera devices and data streams from single or multiple systems, place them into a custom layout and create a group.

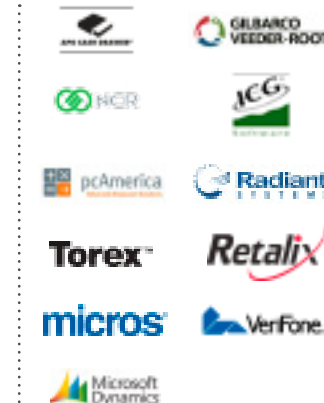

Seamless Integrations – *Feel the power!*

Simple Integration with your components!

DIGIOP® hybrid video recorders utilize your existing investments in analog cameras and allow for a seamless migration path to either IP or megapixel cameras while extending the value of video beyond traditional surveillance benefits of loss prevention, risk management, and security.

Try one of our industry leading Hybrid video management systems today!
Best used for standard applications such as homes, bank branches, and most small to medium sized businesses.

Grow as You Go

With DIGIOP you can grow as you go so you do NOT pay for additional up front licenses. If your needs change over time from channel count, audio needs, point of sale integration, or you would like analytics capability, you can simply purchase what you need and add as you wish. In addition, these licenses don't expire, so as with much competition you only pay once for a license and can use it without the hassle of ANY maintenance fees.

Why do we use green A/V drives?

- Lower power Green A/V drives are optimized for low power consumption and low environmental impact
- Higher performance our A/V drives are designed for 24-hour audio/video applications, and to maintain high performance over a longer life with low failure rates

Backed by

For years DIGIOP has partnered with Dell Computer Systems for their hardware platform. DIGIOP carefully selects specific platforms and does extensive qualification to get the best for their customers while keeping the solutions at a very competitive cost.

Universal Dashboard

- Access all your sites from one easy-to-use dashboard
- Remotely access your video anytime, anywhere you have a data connection
- DIGIOP now has iPhone applications for viewing your system as well

FREE Hosted Backups

- DIGIOP provides a FREE hosted service to save your configurations
- No need for down time EVER and true web-based centralized management

DIGIOP IP Indoor Mini Dome Camera

Superior network IP video solution for professional indoor applications

- Up to 720x480 (D1) Resolution @ 30fps
- H.264/MPEG-4/MJPEG compression codecs
- Digital Day/Night
- Includes VCA-PRESENCE intelligent motion detection
- Audio Input and Output
- PoE IEEE802.3af / DC12V

Includes 3-year warranty and 30-day money-back guarantee.

IP Indoor Mini Dome Camera BLK-IPD103 \$399.99

VCA ANALYTICS

VCA Analytics are included on all DIGIOP BLACK cameras. Analytics work right of the box and include a self-learning algorithm that automatically adapts to the environment. Start using VCA-PRESENCE right away, and call us to upgrade to VCA-ACCESS or VCA-PRO.

VCA-PRESENCE

General Presence Detection and Camera Tampering Detection

VCA-PRESENCE comes standard with all DIGIOP BLACK cameras and includes user-defined zones with alerts and event smart search.*

VCA-ACCESS

Count People & "Tailgating" Detection

VCA-ACCESS upgrade includes:*

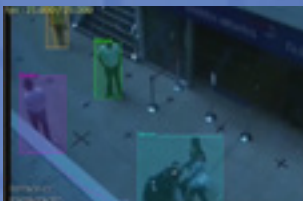

- » VCA-PRESENCE, plus:
- » On-screen counters
- » Counting line
- » Tailgating
- » 40 zones

VCA-PRO

Advanced People-Tracker and Line-Crossing Counting

VCA-PRO upgrade includes:*

- » VCA-PRESENCE and VCA-ACCESS, plus:
- » Class & speed filters
- » Direction & dwell filters
- » Loitering
- » Abandon & object removal
- » Advanced people tracker

* Requires DIGIOP ELEMENTS™ Single Channel IP License + DIGIOP Data Single Channel Activation License for use with DIGIOP ELEMENTS™. Additional licensing may be required for third-party VMS.

Dome Network Camera

See up to 50' in the dark with this outdoor, vandal-resistant dome

- 2.0 Megapixel resolution at 15 fps
- Built-in IR with a 50' range
- 3 mm - 10 mm varifocal lens
- Tri-axis design for easy installation
- Digital I/O for external sensor and alarm
- 2-way audio support
- 3D noise reduction for crystal-clear video
- Micro SD card support

No need to add on IR illuminators or other forms of external lighting – this 3S 2.0 megapixel IP dome camera includes a built-in IR array, giving you 50' visibility in complete darkness. The adjustable varifocal 3 mm to 10 mm lens lets you get the exact shot you need. The camera is weatherproof and vandalproof with a tri-axis design for simplified installation.

New! LG Cameras and DVRs

WHY CHOOSE LG?

A TRUSTED BRAND

LG is one of the world's leading producers of consumer electronics, mobile communications, home appliances and security products. LG has 114 subsidiaries around the globe and a dedicated engineering team focused on developing their own proprietary technology.

CUSTOMER-DRIVEN DESIGN

LG's product design philosophy combines ergonomics with the latest cutting-edge technology to enhance functionality. LG's products are built on the principle that design plays an essential role in synchronizing technology with human needs.

INNOVATIVE TECHNOLOGY

LG continues to be a pioneer of innovation by incorporating advanced technology into their products, including their proprietary XDI-V chipset with 3-line filter and edge enhancement for video security solutions.

THE POWER OF EXTREME DYNAMIC XDI TECHNOLOGY

LG's innovative XDI ISP chipsets are engineered to process high-resolution images from 520K/610K sensors, applying 3-line filter and edge enhancement technology to deliver industry-leading image quality under a wide range of lighting conditions with true resolutions from 600 TVL to multi-megapixel.

NEW! LG 1080p 12x Outdoor Network PTZ Camera

Built-in ICR (true day/night)

12x ZOOM

- 1/2.8" Progressive Scan CMOS
- High Definition Video Quality: Up to 1920 x 1080 Resolution (1080p)
- H.264 / MJPEG Dual Codec
- 30 fps @ 1080p Resolution
- 12x Optical Zoom and 12x Digital Zoom
- Panning Range & Speed : 0° ~360°, Max. 500°/Sec
- Tilting Range & Speed : 0° ~180°, Max. 500°/Sec
- True Day/Night (ICR)

- Wide Dynamic Range with ACE (Adaptive Contrast Enhancement)
- Audio Input and Output
- Alarm Sensor Inputs and Outputs
- SD Card Slot (supports up to 32GB SDHC)
- Operates with hPoE or 24 VAC
- LG Ipolute VMS Suite, Mobile Application (iPhone, Android)
- IP66 Vandal-proof Housing

Introducing! **Intelligent IP Access Control**

Experience the power of IP-based electronic access control

Features and Benefits of infinias IP-based Access Control

- » Leverage existing network infrastructure, connect with a single CAT5 cable
- » Power door peripherals from the controller and lower cabling costs by reducing the length and number of wires
- » Simple installation with a double gang box
- » No need for 'client' software – supports any device that can browse the internet
- » Eliminates the need for server hardware and maximizes scalability

Small, Yet Powerful

The eIDC32 single door controller delivers the power you need in the smallest form factor in the industry, managing up to 64,000 credentials when paired with the Intelli-M Access® browser-based software. Server down? No problem, this intelligent little device buffers 16,000 local events until connectivity is restored.

Intelli-M Access

Combine the Ethernet Integrated Door Controller, eIDC32, with the browser-based management application, Intelli-M Access, and feel the power of infinias.
